Hello I want to ask that DOJ leave Microsoft alone! Mr. Gates et.al. have done more for the nation(the world?) than many many people that have come before.I use Microsoft products as well as many others, and they have done nothing but improve,lastly didnt this start because Netscape was losing browser share?Wasnt netscape aquired by AOL who merged with Time/Warner thereby creating one of the largest media and content delivery monopolies in (arguably)history? Please save Microsoft,
Robert Lozonne
